IDENTIFIERS	Evergreen State College WA; University of Washington; *Washington; Washington State University

ABSTRACT

This is the 24th annual report of tuition and fee rates at public institutions in the 50 states. All data contained in the report were compiled using Washington State Higher Education Coordinating Board surveys of state agencies and/or individual institutions. Eight tables display historical and current academic year tuition and/or required fee rates for full-time resident and nonresident undergraduate and graduate students at public four-year colleges and universities, and two tables present state averages for community colleges in each state. Appendices, comprising over half the report, discuss the national peer groups used as bench marks in the development of higher education funding policies and provides tables comparing tuition and fee rates at the University of Washington and Washington State University to the average of those at peer institutions. The appendices also include data on full-time tuition and fee charges for the first professional degree programs of medicine, dentistry, and veterinary medicine; national peer group comparison data for Evergreen State College; and an overview of Washington tuition and fee policies and legislation since 1977. INTRODUCTION

Overview

This is the twenty-fourth annual report of tuition and fee rates at public institutions in the fifty states. All data contained in this report were compiled using Higher Education Coordinating Board surveys of state agencies and/or individual institutions. Board staff greatly appreciate the continued cooperation and assistance provided by the many respondents to these surveys. Their continued efforts to provide accurate and timely data have helped make these reports source documents for many states in the development of their own tuition and fee analyses and presentations to governing boards and legislatures.

With each annual survey, respondents have an opportunity to review and revise previously reported data. Though small in number, such revisions modestly affect the national averages from those displayed in earlier reports. Revisions may reflect a mid-year surcharge, discontinuation of a nonresident differential, or an adjustment in incidental fees.

Tables 1 through 8 on the following pages display historical and current academic year tuition and/or required fee rates for full-time resident and nonresident undergraduate and graduate students at public four-year colleges and universities. Tables 9 and 10 display state averages for community colleges in each state. Each table also shows Washington State's ranking nationally. Tables also provide the one and four year percentage increases for each state.

Compilation of averages has been consistent over time and has dealt with the "university of" each state and state averages of those public colleges and universities reported since 1968-69 in these annual Board reports. Data on the state colleges and universities represent the average undergraduate charges at 213 state public institutions and the average graduate charges at the 192 of those that offer graduate programs. Although not all public institutions are included in

this survey, the averages and changes over time at the same set of institutions offer consistency and the large number of institutions included provides a close approximation to state averages.

Appendix A discusses the national peer groups used as bench marks in the development of higher education funding policies and provides tables displaying the relationship of tuition and fee rates at the University of Washington and Washington State University to the average of those peer groups.

Data on full-time tuition and fee charges for the first professional degree programs of medicine, dentistry and veterinary medicine are included in Appendix A for the same peer groups.

Appendix A also includes national peer group data for The Evergreen State College. This is the second year that this information has been collected.

Appendix B contains an overview of Washington tuition and fee policies and legislation since 1977.

Data Availability

Data contained in this report, as well as the historical data since 1972-73, are available upon request on a computer diskette.

SUMMARY

Tables 1 through 10 on the following pages provide a national perspective on tuition and fee rates and increases over the most recent five years. A summary of the 1992-93 percentage increases for Washington and the national averages is provided below, as well as an overview of the relationship of Washington tuition and fee rates to the national averages.

APPENDIX A

PEER COMPARISON GROUPS

PEER COMPARISON GROUPS

The development and use of peer institution comparison groups is a subject familiar to most institutions and state coordinating and governing boards. Washington higher education, legislative and executive staff have twice studied the role and selection of peer institutions in recent years. In 1988, the Higher Education Coordinating Board undertook a study to develop peer groups reflecting a national perspective. Concurrently, a special joint legislative and executive study group was appointed to review the higher education master plan funding recommendations, with peer comparison groups identified as one of its areas of study. The Joint Study Group and the Board worked together and adopted the following peer policies:

1. The Carnegie Commission's classification of institutions be used as the basis for selecting comparison groups for Washington's institutions of higher education.

2. The national comparison group for the University of Washington be all public institutions in the Carnegie classification Research Universities category 1 with medical schools.

3. The national comparison group for Washington State University be all public land grant universities in the Carnegie classification Research Universities categories 1 and 2 with veterinary schools.

4. The national comparison group for Central, Eastern, and Western Washington Universities be all public institutions in the Carnegie classification Comprehensive Colleges and Universities category 1.

5. The national comparison group for the Washington Community College System be all state community college systems.

A peer group for The Evergreen State College was adopted by the Higher Education Coordinating Board in 1990 using the Carnegie Commission's classifications of institutions. A composite category of public institutions in the Comprehensive I and Liberal Arts II classification was screened. Institutions were selected based on size, similarities of degrees awarded, and other characteristics common to The Evergreen State College.

A summary of Washington tuition and fee rates compared to peer institutions is shown on the next page, followed by the detail tables.

Although these groups, as herein defined, are not used in the development of Washington's tuition and fee policy, data on the adopted peer groups for the University of Washington and Washington State University are displayed in Tables A1 through A8 respectively as a resource for interested persons. Tables A9 through A14 display the tuition and fee charges for the first professional degree programs of medicine, dentistry and veterinary medicine for the same institutions.

It is felt that data on the 213 state colleges and universities contained in Tables 5 through 8 provide a reasonable perspective on the national group selected for comparison with Central, Eastern, and Western Washington Universities. Similarly, Tables 9 and 10 represent the national group selected for the Washington Community College System.

Data for The Evergreen State College peer group are reported in Tables A15 through A18.

Longwood College, VA	7,030	7,990	13.7%
THE EVERGREEN STATE COLLEGE, WA	8,187	8,640	5.5%
University of Wisconsin-Superior	6,784	7,323	7.9%
University of Wisconsin-River Falls	6,810	7,365	8.1%
University of Wisconsin-Green Bay	6,784	7,400	9.1%
Average (20 institutions)	5,687	6,345	11.6%
The Evergreen State College Rank	2	2	

APPENDIX B

WASHINGTON STATE
TUITION AND FEE POLICIES

WASHINGTON STATE TUITION AND FEE POLICIES

In 1977 the Washington Legislature amended the tuition and fee statutes to relate the tuition and fee rates to fixed percentages of calculated educational cost. Percentages established were to be used to calculate recommendations and were not binding on future Legislatures. The increases recommended for the 1977-79 biennium were adopted by statute and phased in over two years on a 75/25 percent basis.

The Legislature chose to not increase tuition and fees in 1979, but in 1981 increased the percentages of costs to be paid by students. At that time it adopted an automatic adjustment feature, and again phased in the increases on a 75/25 basis. Additional increases in some tuition and fee categories were made by the Legislature in 1982. The 1981 and 1982 legislation also provided that increases in tuition and fees would be made biennially based on the educational cost of the previous biennium. Since the legislation had no provision to phase in adjustments, the 1983 and 1985 increases took effect in the first year of each biennium.

Legislation passed in 1986 required that tuition and fees be established biennially and provided for annual adjustments beginning with the 1987-88 academic year. The legislation also required that the transition from the biennial tuition adjustment to annual adjustments not result in reduced revenue to the state general fund.

The most recent Educational Cost Study was completed by the Board using 1989-90 data. Under current law, this study provides a direct link between the cost of education at Washington institutions and the tuition and fees paid by students at those institutions. This study is used to determine cost distribution ratios for each institution. These relationships then provide the basis for determining the educational cost on which subsequent tuition and fee levels may reasonably be calculated.

The proportion of educational cost on which tuition and fees are based is as follows:

	Proportion of Educational Cost
UNIVERSITY OF WASHINGTON/ WASHINGTON STATE UNIVERSITY	
Resident Undergraduate	33%
Resident Graduate	23%
Resident MD/DDS/DVM	(A)
Nonresident Undergraduate	100%
Nonresident Graduate	60%
Nonresident MD/DDS/DVM	(A)
CWU/EWU/TESC/WWU	
Resident Undergraduate	25%
Resident Graduate	23%
Nonresident Undergraduate	100%
Nonresident Graduate	75%
COMMUNITY COLLEGES	
Residents	23%
Nonresidents	100%

(A) Professional rates (Medicine, Dentistry, and Veterinary Medicine) are calculated at 167 percent of the resident and nonresident graduate rate.

In establishing the 1989-91 tuition and fee rates, the Legislature rejected the use of those costs not developed through a faculty activity analysis and required that institutions not already doing so would conduct such an analysis for the 1989-90 Education Cost Study.

The 1989-90 Cost Study was completed using a faculty activity analysis for all institutions as required by the Legislature. Those costs were used to establish the tuition and fee rates for the 1991-93 biennium.
